## Cerritos water meets or exceeds standards

Cerritos water meets or exceeds all state and federal standards for drinking-water quality as reported in the City's Annual Consumer Confidence (Water Quality) Report. The report is on the City's website at [cerritos.us/ccr2015.pdf](http://cerritos.us/ccr2015.pdf).

State and federal laws require printed or electronic distribution of the water-quality information to everyone served by the City's water utility. The report describes the City's stringent water tests, which are conducted more frequently than required by the State Health Department. Cerritos water consistently tested clean.

In addition to offering detailed test results, the Consumer Confidence Report also describes the City's water supply, which flows to customers through a system of wells, reservoirs, mains and pipes.

Landlords, employers and school administrators are encouraged to share the water-quality report with their tenants, employees and students.

Copies of the report are available at the water billing counter on City Hall's second floor. For more information, call the Water Division at (562) 916-1223. ■
