CONSUMER CONFIDENCE REPORTS SHOW EXCELLENT WATER QUALITY IN SACRAMENTO

California American Water Surpasses State and Federal Standards

SACRAMENTO (June 6, 2017) – California American Water published the 2016 Consumer Confidence Reports, which demonstrate high quality water service throughout the Sacramento District.

The annual reports compare California American Water's water quality with standards established by the U.S. Environmental Protection Agency and the California Department of Public Health. The report also discusses drinking water sources, public health information, substances detected in the water and the levels of those substances. Commonly asked questions and answers concerning drinking water are also included.

This year's reports come with a new design that is aimed at making the report more reader friendly and accessible to the general public. The new reports feature illustrated sections of common contaminants and simple-to-read explanations of the various technical terms within the document.

"While our water reports are comprehensive and do illustrate our excellent water quality, we realize that most of our customers are not technical experts," said Rich Svindland, President of California American Water. "We hope that customers will find the new design more accessible, educational and helpful in answering the questions they may have about the state of their water."

The new report has an expanded section on lead and how the company continues to comply and exceed all state and federal treatment standards in regards to this contaminant.

California American Water's Consumer Confidence Reports, which are available to customers starting this May, are searchable by zip code and accessible online at www.californiaamwater.com.

California American Water, a subsidiary of American Water (NYSE: AWK), provides high quality and reliable water and/or wastewater services to more than 615,000 people.

Founded in 1886, American Water is the largest publicly traded U.S. water and wastewater utility company. Marking its 130th anniversary this year, the company employs more than 6,700 dedicated professionals who provide regulated and market-based drinking water, wastewater and other related services to an estimated 15 million people in 47 states and Ontario, Canada. Your Water Quality Report is Now Available Online

Each year, California American Water provides its customers with an Annual Water Quality Report to let them know how our water quality stacks up against established federal and state drinking water standards. We encourage you to review this report as it provides details about the source and quality of the drinking water delivered to your community.

In an effort to be more environmentally responsible, we no longer print these reports, but have made them available on the Internet. To view your water quality report online, visit us at: **www.amwater.com/ccr/meadowbrook.pdf**

If you wish to have a paper copy, you can print one directly from our website. You can also receive a printed version by contacting our Customer Service Center at 1-888-237-1333.

Attention landlords, businesses, schools and other groups:

Please share this information with tenants, students and other water users at your location who are not billed customers of California American Water.
