

## HEALTH CLAIM PERFORMANCE TESTED & CERTIFIED BY WQA

This system has been tested according to NSF/ANSI 42 and 53 for the reduction of the substances listed below. The concentration of the indicated substances in water entering the system was reduced to a concentration less than or equal to the permissible limit for water leaving the system, as specified in NSF/ANSI 42 and 53.

Substance	Influent Challenge Concentration	Max. Permissible Product Water Concentration	Reduction Requirements	Minimum Reduction	Average Reduction
<b>Standard 42—Aesthetic Effects</b>					
Chlorine	2.0 mg/L ± 10%		≥ 50%		99%
Particulate, Class I particles 0.5 to <1 µm	at least 10,000 particles/mL		≥ 85%		98.3%
<b>Standard 53—Health Effects</b>					
Cyst	Minimum 50,000/L		99.95%	99.99%	99.99%
Lead 8.5	0.15 mg/L ± 10%	0.010 mg/L		99.9%	99.9%
Lead 6.5	0.15 mg/L ± 10%	0.010 mg/L		93.2%	98.5%

**NOTE:** This installation must comply with all applicable state and local regulations.

**NOTE:** Maximum working pressure 125 psi.

**NOTE:** Do not use with water that is microbiologically unsafe or unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on waters that may contain filterable cysts.

**NOTE:** Testing was performed under standard laboratory conditions, actual performance may vary.

**NOTE:** This drinking water system must be maintained according to manufacturer's instructions, including replacement of filter cartridges. Suggested retail \$134.99.

## CALIFORNIA PROPOSITION 65 WARNING

**⚠ WARNING:** This product contains chemicals known to the State of California to cause cancer or birth defects or other reproductive harm.
